COST ESTIMATE

March 26, 2002

H.R. 2109

A bill to authorize the Secretary of the Interior to conduct a special resource study of Virginia Key Beach Park in Biscayne Bay, Florida, for possible inclusion in the National Park System

*As ordered reported by the House Committee on Resources
on March 20, 2002*

H.R. 2109 would require the National Park Service (NPS) to evaluate the national significance of Virginia Key Beach Park and the suitability and feasibility of establishing it as a unit of the National Park System. The legislation would require the agency to report to the Congress on its findings upon conclusion of the study.

Based on information provided by the NPS, CBO estimates that completing the required study and report would cost the federal government \$50,000 over the next three to four years, assuming the availability of appropriated funds. H.R. 2109 would not affect direct spending or receipts; therefore, pay-as-you-go procedures would not apply. H.R. 2109 contains no intergovernmental or private-sector mandates as defined in the Unfunded Mandates Reform Act and would impose no costs on state, local, or tribal governments.

The CBO staff contact for this estimate is Deborah Reis. The estimate was approved by Peter H. Fontaine, Deputy Assistant Director for Budget Analysis.
